

2191 HILLCREST ROAD • QUAKERTOWN • PA • 18951 • (855) 752-6862

ArcheWild 200s builds on our expansive seed genetics program to provide fully-accessioned starter plugs for high-volume growers.

Our 200s allows growers to build a finished product in as little as 10% of the time it would normally take growing from seed. All starters can be planted out on projects as late as June at a fraction of the cost of larger plug sizes. Most cells contain 3-5 seedlings, which can be separated if desired.

Species available for orders in February:

- Schizachyrium scoparium
- Eragrostis spectabilis
- Monarda didyma
- Asclepias incarnata
- Asclepias tuberosa
- Symphotrichum prenanthoides
- Symphotrichum cordifolium
- Eurybia divaricata

Additional species availability includes:

Grasses	Forbs
Schizachyrium scoparium var. scoparium	Agastache foeniculum
Eragrostis spectabilis	Agastache scrophulariifolia
Koeleria macrantha	Monarda didyma
Chasmanthium laxum	Asclepias incarnata var. incarnata
Schizachyrium littorale	Asclepias tuberosa var. tuberosa
Tridens flavus	Asclepias syriaca
Deschampsia flexuosa var. flexuosa	Symphotrichum prenanthoides
	Symphotrichum cordifolium
	Eurybia divaricata
	Mondarda fistulosa var. fistulosa ssp. fistulosa
	Packera aurea
	Erigeron pulchellus var. pulchellus
	Conoclinium coelestinum
	Pycnanthemum virginianum
	Pycnanthemum tenuifolium
Shrubs	
Diervilla sessilifolia	
Diervilla lonicera	
Hypericum densiflorum	
Hypericum prolificum	
Spiraea alba var. alba
